I feel you are doing a great job the magazine, is very good, meetings are all well arranged me and my wife are the victims old age, but enjoy the club and the info it brings, good luck

The BOC was (and is fantastic) when we first bought our Broom 38 after sailing for many years.

I feel you are doing a great job the magazine, is very good, meetings are all well arranged me and my wife are the victims old age, but enjoy the club and the info it brings, good luck

The BOC is a reassuring support network for owners of Broom boats and especially the older models such as my Crown

Thank you for your continued work.

I think the Owners Club do a great job and long may it continue

You all do a fine job. You cannot please all members all of the time. Thank you all for giving your time.

Really appreciate what BOC does, but being new to boating we're still finding our way!

Everyone appreciates, hopefully, the amount of work any volunteer does for any organisation and Broom Owners is no exception. Many of us are also members/committee members of boat clubs, some large

The website is a useful source of information though and the magazine is good. I do much appreciate the hard work of the committee members and organisers and would be happy to help from time to time when appropriate

As a reasonably new member I am working my way into the club activities and appreciate all the efforts of the of the various committees. I also have a 140 mile drive to my boat so sometimes cannot not commit myself to certain events but I will try participate where possible.

You are providing a great service and I am sorry I am not coming across as someone who is prepared to do a lot.

I think the committee do a splendid job and this survey is very well constructed

As a relatively new member of the club, I recognise that there is a wealth of knowledge and experience about the boats and the network within the club can provide valuable support. At the moment I am not in a position to take on an "active" role in the club, (by contributing to the organisation within the club) although I do recognise that someone has to and to those people, I am grateful.

I think the committee etc is doing a good job. It must be difficult to maintain the member numbers as there is no extra boats to get higher member numbers.

In general this is a great org and resource. Very well run and co ordinated in my region (Ire)

I am grateful to all who make the effort to keep this great club going.

No concerns just admiration for the organisers

A quite comprehensive review.

Keep up the good work. Not there yet, but maybe in a few years, could help out and attend more.
